Subject: December 4th meeting

---

Everyone,

Following are the points we would like to discuss at our meeting on Monday, December 4th, EPA offices 77 W. Jackson, Room 327 at 8:00 a.m.

Status of properties contiguous to known contamination site - Grand Pier Development --

201 E. Grand	Volare Restaurant
<del>211 E. Grand</del>	Network Century
205 E. Grand	GND and EKO
215 E. Grand	Mary's Cafe

Status of Lindsay Light I - 161 E. Grand - Currently occupied known contaminated site.

Will an attempt be made to test sites surrounding Lindsay Light I, II, and III?

Developments which are in the planning stage -

241 E. Ohio - Grand, Ohio, Fairbanks. Presently a parking lot and small hot dog stand - soon to be developed by Draper & Kramer.

341 E. Ohio - Grand, Ohio, McClurg. Presently under consideration for development.

Kraft building - Illinois, Grand, Peshtigo Court. Part of McLean's planned development, possible down zoning being attempted.

530 N. Lake Shore Drive - Sales office set up. No date for start of construction.

600 N. Lake Shore Drive - No activity.

Status of testing at Navy Pier and Gateway Park - Navy Pier Headlands applied for voluntary clean up in 11/92. Was a "No Further Testing Letter" ever sent? Scan van showed contamination possibility. Further testing necessary.

Have you found any information concerning possible Brownfield sites in Streeterville?

Have you answered the concerns of residents of City View Condos?
